beaphar®

Mite Spray

Over 80g

For the treatment of mites and ticks

Veterinary Medicine
Mite spray
Cutaneous spray containing: ivermectin 0.02% w/w

When should I use this product?
Mite spray is effective against a wide range of ticks and mites, including snake mites, red mites and sub-cutaneous species. Symptoms of mite infections are listlessness and decreased activity, a dull appearance and crusting of the scales.

NOT SUITABLE FOR CHELONIANS, SKINKS OR INDIGO SNAKES.
NOT SUITABLE FOR REPTILES AND AMPHIBIANS WEIGHING LESS THAN 80G.
NOT FOR USE ON BREEDING ANIMALS.

Directions for use
Remove drinking and swimming water before using this product (can be replaced after 1 hour). Do not combine with other antibacterial or anti-parasite products. Treat all animals kept together at the same time. Weigh your reptile or amphibian before use and follow the dosing schedule. If the animal's skin is dirty, clean this before using the spray. Spray from a short distance of 10-15 cm. Spray the liquid over the skin starting from the back to the front. Avoid contact with the eyes, ears, nose, mouth and genitals. Let the skin dry naturally. Product can be re-applied once every 4 weeks.

Weight	**NO. Sprays**
80 - 200 g	1
200 - 400 g	2
400 - 600 g	3
600 - 800 g	4
800 - 1000 g	5

Therapeutic indications
To control mites and ticks on reptiles and amphibians.

Contraindications
Do not use on breeding animals.
Local irritation and hypersensitive reactions can arise if the spray touches the skin around the eyes. If skin irritation occurs discontinue the treatment.

Undesirable effects
None known.

Recommendations:
Before use, remove drinking and swimming water.
Wear suitable gloves and wash hands with soap and water after use.
Do not use in combination with other medicines.
If signs of disease persist or appear after use, consult your veterinary surgeon.

Veterinary medicine for reptiles and amphibians only.
Do not use in animals other than those indicated. Serious reactions, including deaths, have been reported in dogs (especially Collies, Old English Sheep Dogs and related breeds), tortoises and turtles treated with products containing the active substance.
Do not use in tortoises or turtles.
This veterinary medicine is marketed in accordance with Schedule 6 of the Veterinary Medicines Regulations - Exemptions for small pet animals. SAM 0011
For animal treatment only.
Keep out of reach of children.

Storage and disposal recommendations
Store at room temperature between 8˚C and 25˚C. Do not store in freezer or refrigerator. Dispose of the empty container in household rubbish.
